SYSTEXX PHANTASY BAMBOO 050

THE LARGEST BLADE OF GRASS IN THE WORLD

Bamboo is an increasingly popular plant for a myriad of applications. No other plant can grow as incredibly fast as bamboo and no other plant produces as much oxygen. Although it belongs to the grass family, its blades lignify, making bamboo extremely robust. Last but not least, bamboo is also a beautiful plant whose unique charm is reflected in the pattern of **SYSTEXX Phantasy Bamboo**.

SYSTEXX PHANTASY DESERT 083

A PLACE OF EXTREMES

The desert – an inhospitable and yet fascinating place. Within a single day, the temperature can vary by more than 30°C. Not a single drop of rain for months, the ground dries out completely and cracks appear in many places, forming a unique pattern – this was our inspiration for **SYSTEXX Phantasy Desert**. Shifting light and shadow create a stunning atmosphere.
