INNOVATIVE GLASS FABRICS AND FLEECEs FOR WALLS AND CEILINGs

SMOOTH WALLS WITH EXTRA BENEFITS

## SYSTEXX ACTIVE ACOUSTHERM GLASSFLEECE

Perfect for anyone seeking maximum wall performance combined with a modern, purist look.

Whereas only textured fabrics were available in the past, the new SYSTEXX Active AcousTherm Glassfleece provides the first smooth-wall alternative, offering identical, proven acoustic and thermal insulation properties.

The white fleece applied to the back **reliably absorbs sound while also improving the room's energy efficiency**. SYSTEXX Active AcousTherm Glassfleece reduces disturbing reverberation, dampens high-frequency noise, and creates a calm, pleasant atmosphere – perfect for workspaces, meeting areas, or residential environments with high comfort standards.

Thanks to its smooth, flat surface, the material blends naturally with any modern interior design without sacrificing the acoustic benefits of the proven AcousTherm technology.

SYSTEXX Active AcousTherm Glassfleece – the perfect combination of aesthetics, acoustics, and energy efficiency.

*Ideal for quieter, warmer, and more stylish spaces.*

FOR MODERN INTERIOR SPACES

## POWERFUL TECHNOLOGY – SUBTLE DESIGN

- | Smooth surface
- | **Sound absorption coefficient** according to DIN EN ISO 354:  **$\alpha_w$  0,20 (H)**
- | Sound absorption class E
- | Up to **10 % energy savings**, up to **2 °C higher surface temperature**
- | Fire-resistance rating B-s1, d0
- | Approx. 3.0 mm thick – evens out surface irregularities up to 2 mm
- | Application with standard dispersion adhesive
- | White backing fleece – no show-through possible
