

SYSTEXX PHANTASY - GLASS FIBER WALL COVERINGS WITH CREATIVE TEXTURES

WORLDS OF FANTASTIC DESIGNS

SYSTEXX 
by Vitrolan

INNOVATIVE GLASS FABRICS AND FLEECES FOR WALLS AND CEILINGS

WORLDS OF DESIGN

ENVISION YOUR SPACE

Be it the deepest jungle or a vast, barren desert landscape: **SYSTEXX Phantasy** takes you on a journey into fantastic worlds. Opulent designs, fascinating and large-size patterns turn entire rooms or accentuated walls into the highlight of any apartment, office or hotel room. Create a breathtaking atmosphere and liven up your walls with fantastic decor ideas.

DIVE INTO A WORLD OF COLOR

LET YOUR IMAGINATION RUN WILD

Although the texture of a wall covering is important for setting the atmosphere of a room, it is the combination of pattern and matching color that gives a room a special, individual ambiance.

Dive into the **SYSTEXX Phantasy** world of pattern and color designs and find out on the following pages how to liven up your home with striking arrangements.

SYSTEXX PHANTASY BAMBOO 950

THE LARGEST BLADE OF GRASS IN THE WORLD

Bamboo is an increasingly popular plant for a myriad of applications. No other plant can grow as incredibly fast as bamboo and no other plant produces as much oxygen. Although it belongs to the grass family, its blades lignify, making bamboo extremely robust. Last but not least, bamboo is also a beautiful plant whose unique charm is reflected in the pattern of **SYSTEXX Phantasy Bamboo**.

SYSTEXX PHANTASY ICECUBES 977

ICE-COLD FASCINATION

Water – an element that can truly be described as a shapeshifter. One of the most fascinating forms of water is ice. Although it is even stable enough for heavy trucks to drive on, ice is also so sensitive that only a few sun rays are needed to melt it.

SYSTEXX PHANTASY STARS 984

SO FAR AND YET SO NEAR

Sleeping under the stars, watching shooting stars or looking for constellations
– what child would not love to enjoy this holiday experience every day? **SYSTEXX**
Phantasy Stars transforms a child's room into an outdoor adventure every night.

SYSTEXX PHANTASY DESERT 983

A PLACE OF EXTREMES

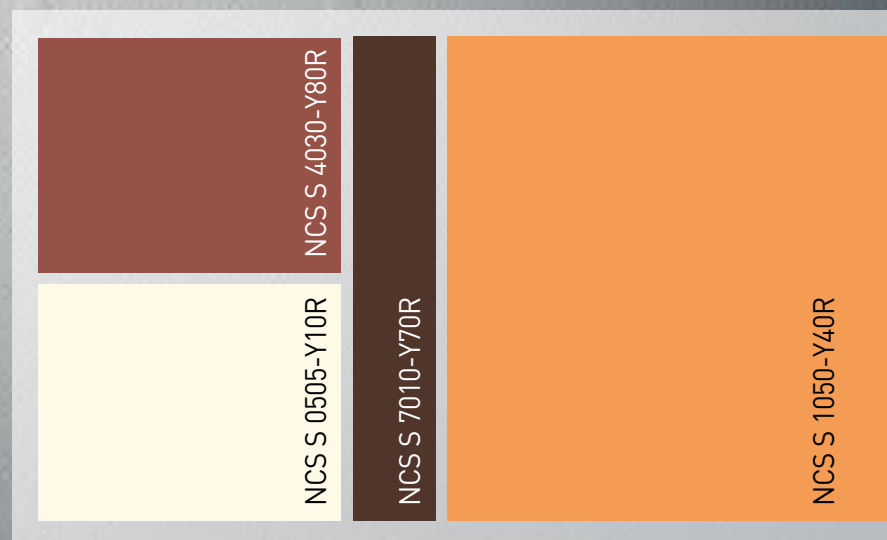

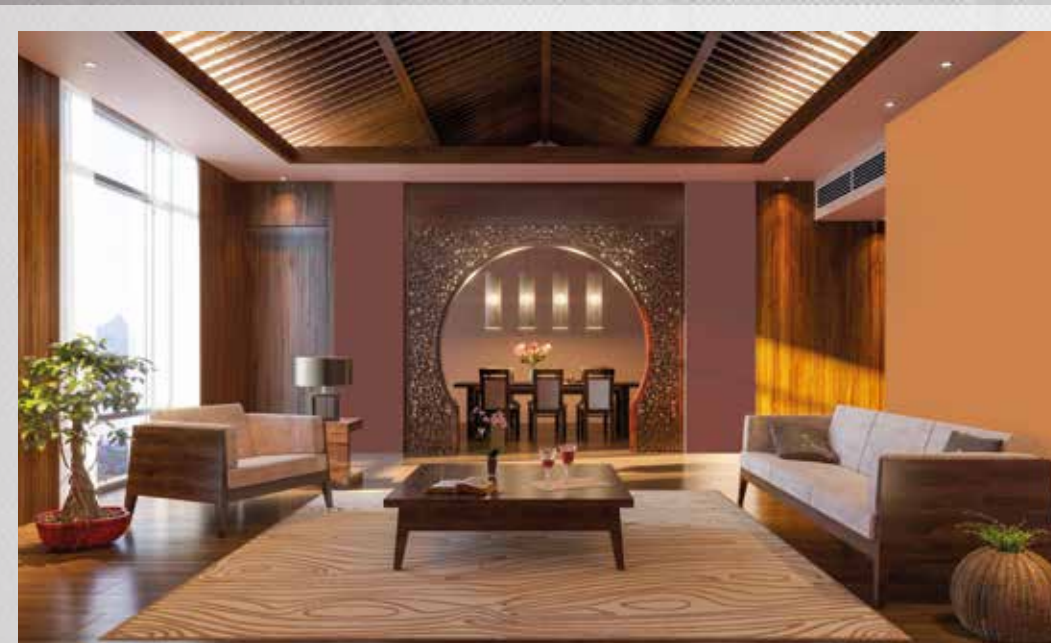

The desert – an inhospitable and yet fascinating place. Within a single day, the temperature can vary by more than 30°C. Not a single drop of rain for months, the ground dries out completely and cracks appear in many places, forming a unique pattern – this was our inspiration for **SYSTEXX Phantasy Desert**. Shifting light and shadow create a stunning atmosphere.

SYSTEXX PHANTASY ORIENT 982

TALES FROM A THOUSAND AND ONE NIGHTS

The Orient: foreign and exotic. Countless stories and myths surround the land that has given rise to the tales from A Thousand and One Nights. **SYSTEXX Phantasy**

Orient brings the mysterious world of the Orient directly into your home.

SYSTEXX PHANTASY VERSAILLES 980

AT THE COURT OF THE SUN KING

Originally a small hunting lodge, Versailles Palace was gradually extended by King Louis XIV to become the largest residential palace in Europe. The Baroque gardens and the magnificent palace attract almost eight million visitors a year. **SYSTEXX Phantasy Versailles** adds a touch of Baroque glamour to your decor.

SYSTEXX PHANTASY DIAMOND DUST 972

SPARKLING LIKE A DIAMOND

In their natural form, diamonds consist of extremely compressed, pure carbon.

Diamonds are the hardest naturally occurring minerals on Earth. They are also the most precious gemstones and are highly popular worldwide. Once cut and polished, diamonds glisten with a unique and fascinating play of light. **SYSTEXX Phantasy**

Diamond Dust reflects the spectacular structure of a diamond and makes every wall shine with a special sparkle.

SYSTEXX PHANTASY STARDUST 973

INFINITE SPACE

What entices us to dream more than the mysterious vastness of space? Brightly sparkling stars, planets light years away, mysterious alien galaxies: only a tiny fraction of space has been explored to date. Let your mind wander into distant galaxies with **SYSTEXX Phantasy Stardust**.

The properties mentioned here apply to a large part of the SYSTEXX by Vitrulan range and may vary subject to the relevant coating.

The Vitrulan Group has production facilities at two locations in Germany: Marktschorgast (Kulmbach) and Haselbach (Sonneberg) as well as one in Mikkeli, Finland.

Wall coverings made of glass fabrics and glass fleeces, modern infrared surface heating based on glass fabrics, and technical textiles made of glass, synthetic, and carbon fibers make up the core products of the Vitrulan Group.

Vitrulan produces extremely robust, hard-wearing, sustainable, and versatile wall coverings. A wide range of traditional and modern designs are complemented by innovative wall coverings with additional functions. Sustainable interior design and premium product quality together are our number one priority.
